Social Sciences

SECTION 2 — CAREER MATCH

Best Match: Teacher / Education Technologist

Teachers are the most important profession in any country. In Kenya, the shift to CBC creates demand for a new generation of educators who understand competency-based learning, technology, and child development. Education technologists design the tools and systems that improve how children learn.

Subject Gap Analysis

English	Level 2 / Need 3	Needs +1
Kiswahili	Level 1 / Need 2	Needs +1
Essential Mathematics	Level 2 / Need 2	Meets

NEXT — Ages 17–19 (Specializing)

Pre-university. EdTech interest can be cultivated by building small learning tools or tutoring apps.

- Lesson planning basics
- Public speaking
- Digital education tools

4 PARENT ACTIONS THIS TERM

1. Strengthen Kiswahili

Kiswahili is important for Teacher / Education Technologist. Currently Level 1 (Below) — target Level 2 (Approaching) this term.

Watch Kiswahili news together and encourage responses in Kiswahili. Casual conversation in Kiswahili builds fluency faster than revision. (15 minutes daily)

2. Build Age-Appropriate Skills (Ages 14–16)

You cannot teach what you don't know deeply. Excellent teachers were excellent students in their subjects.

Encourage debate club, school prefect positions, or drama — all build the communication skills teachers need.

3. Explore Teacher / Education Technologist and Other Matches

TREVOR G.M.'s top career match is Teacher / Education Technologist (72% match). The Career Explorer shows the full picture — salary ranges, what the job actually involves, Kenyan examples, and the exact subjects and skills needed to get there.

Open the Career Explorer together. Read the full career profile — the salary tiers, Kenyan success stories, and the skill timeline. Ask your child: "Does this excite you?" That conversation matters more than the match score.
