RECOMMENDED PATHWAY

Social Sciences

SECTION 2 — PATHWAY ANALYSIS

Recommended Pathway: Social Sciences

Social Sciences

Humanities, social sciences, law, education, and community-focused careers.

Full Subject Performance

English	4.0 — Exceeds
Kiswahili	4.0 — Exceeds
Agriculture & Nutrition	4.0 — Exceeds
Social Studies	2.0 — Approaching
Mathematics	2.0 — Approaching

CBC Grade 9 — Pathway placement is based on current performance and is reviewed each term. Students can change pathways up to Grade 10.

What This Means for TUCYLA

TUCYLA is in Grade 9 — the final year of Junior Secondary. The Social Sciences pathway recommendation will guide subject choices entering Grade 10.

Strong performance in English, History, and Social Studies builds the analytical and communication skills that define careers in law, education, and public service.

Pathway can be reviewed each term based on performance. Final selection happens at Grade 10 entry.

STEM Pathway: Within Reach

Mathematics needs to reach Level 3 (currently Level 2). One level of improvement unlocks the full STEM pathway.

KJSEA composite: 49/72 (threshold: 20). Social Sciences remains a strong pathway now.

KJSEA composite: 49/72 points (STEM threshold: 20 points)

Based on KNEC KJSEA 2025 criteria. Subject to change as CBC evolves.

SECTION 3 — SKILL DEVELOPMENT TIMELINE

Age 14 — 14–16

NOW — Ages 14–16 (Humanities Foundation)

Critical thinking and communication skills developed now will define career options in law, education, and public service.

- Debate and public speaking practice
- Reading newspapers — Nation, Standard
- Understanding Kenya current affairs
- Creative writing and storytelling

NEXT — Ages 16–18 (Social Sciences Depth)

University courses in law, social work, and education reward students who can write well and think critically about society.

- Study History, Geography, and CRE in depth
- Develop essay writing and argument skills
- Follow national politics and policy

3 PARENT ACTIONS THIS TERM

1. Strengthen Social Studies

This is the core subject for a Social Sciences pathway. Strong performance here directly strengthens the university application. Currently Level 2 (Approaching) — target Level 3 (Meets) this term.

Read one newspaper article together each week and discuss it. Ask Marion: "What caused this? What would you do differently?" (30 minutes, once a week)

2. Build Age-Appropriate Skills (Ages 14–16)

Critical thinking and communication skills developed now will define career options in law, education, and public service.

Encourage reading and discussion of current events. Ask for their opinion on news stories — this builds analytical thinking.

3. Start a Learning Compass Session

The AI tutor already knows TUCYLA NYAWIRA's exact level and will start precisely where they are — no wasted time.

Open the Learning Compass in Mathematics. The AI will greet them by name, explain what they're working on, and adapt in real time. First session takes 10 minutes.
